

PROTECT YOUR FAMILY & HOME WITH

IN-HOME CLEANING & DISINFECTION SERVICES

Due to the urgent circumstances surrounding the current Coronavirus pandemic, we have developed a proprietary home disinfection strategy for those who want to do their part to reduce infections and prevent illness. Let us put your mind at ease so your family can stay healthy and feel safe during these uncertain times.

Human coronaviruses cause infections of the nose, throat and lungs. They are most commonly spread through touching something with the virus on it, then touching your mouth, nose or eyes before washing your hands.

One of the most effective ways to fight the spread of COVID-19, is to disinfect frequently touched surfaces in your home. As people come and go, surfaces in the home quickly become contaminated with bacteria and viruses, acting as a potential risk for spreading infections to others.

We have teams that are trained to focus on disinfecting with a special emphasis on the most contaminated items in your home with the proper cleaning equipment, supplies, techniques and disposal. Our teams will give your home a professional, detailed hand cleaning followed by full decontamination of items such as toys, phones, electronics, door handles, bedside tables, remotes, toilets and other high-risk areas. We will disinfect your interior surfaces using products that are completely safe and non-toxic to residents, pets and the environment.

If you have loved ones that are aged 65 or older with compromised immune systems, with underlying medical conditions, it is especially important to ensure your environment is as low risk as possible and maintaining a clean and healthy environment is vital.

We are offering interior surface disinfecting and protection to ensure the highest standard of health and safety for your home and family. We don't just clean. We safely disinfect your interior surfaces and treat them so they remain disinfected and before our staff leaves we will provide you with a long-term sanitization plan.

Contact us to arrange for top quality residential cleaning and disinfecting services from Aurum. For families with vehicles we also can extend the same level of disinfection to your vehicles using effective chemicals that won't harm the finishes in your vehicle and will not leave any harmful residue.
